Product range

Wetcast moulds for garden and landscape products (stone series, steps, coping stones, cover plates and bricks)

Wetcast moulds for urban products (curb elements, bollards, etc.)

Other moulds of PU:

Veneerstones, fireplace carpeting, etc.

In order to implement innovations in pu moulds a high level of experience and technological know-how is required. This is the basis for a high reliability of your production process. Take us as your competent partner in the field of wetcast moulds.
